GENERAL INFORMATION

Orders are subject to acceptance. Verbal orders must be confirmed in writing with all necessary information, such as Bayonne model number, NSN number, sizes, quantities and/or approved shop drawings.

A detailed order acknowledgement is provided for each order. Contact Bayonne immediately if there are discrepancies.

TERMS

Prices will be those in effect at the time of sale. Sales, use and other taxes and levies are the responsibility of the buyer.

By purchasing Bayonne products, the buyer accepts these terms of sale as well as the design, specifications and associated drawings, unless otherwise mutually agreed in advance. All Intellectual Property rights are retained by Bayonne Stainless Products.

Shipments are FOB Amityville, NY

Terms: Net 30 Days for accounts with approved credit. All other orders are Cash in Advance (C.I.A.). We gladly accept Visa or Mastercard.

Design: Bayonne reserves the right to make design changes or specific product changes without notice.

DRAWINGS

Standard Bayonne products, identified by model number or NSN number and size as shown on spec sheets, do not require drawings. If submittal drawings are requested, Bayonne will not proceed with production schedule

without prior written approval, unless otherwise advised.

LEAD TIMES

Lead times for production orders vary with schedule requirements and product complexity. Contact factory at time of release for schedule.

CANCELLATIONS/CHARGES

All sales are final. No product may be returned without an RGA issued by Bayonne Stainless Products, and is subject to a 25% minimum restocking charge.

Orders once engineered and scheduled are subject to cancellation charges as follows:

Engineering	25%
Material Processed	60%
Assembled	100%

Special Fabrications and orders entered into production schedule may not be subject to cancellation.

Cartage: Shipments will be made via carrier chosen by Bayonne, unless otherwise instructed by customer in writing. Freight and shipping charges are the responsibility of the buyer.

GUARANTEE

All products are guaranteed against defect in workmanship and material for a period of one year from date of shipment, provided such defects do not result from abuse, unreasonable usage or other conditions beyond Bayonne's control. Bayonne's liability shall not

exceed the cost of material furnished.

Inspect products fully prior to installation. Bayonne's sole obligations with respect to product shall be to factory repair, correct or replace FOB Factory, at Bayonne's discretion.

Claims for defective or rejected items must be made in writing by the buyer to Bayonne within five (5) days after receipt of shipment.

No unauthorized backcharges will be accepted.

LIABILITY

Bayonne shall not be liable for failure to make deliveries due to conditions beyond its control such as fires, strikes, acts of God, government priorities, etc.

BAYONNE STAINLESS PRODUCTS

50 Ranick Drive East
 Amityville, NY 11701

www.bayonnestainless.com

Top & Pans: Are 16GA stainless steel, type 304. Food Prep Tables are 14GA stainless steel. Die formed, flanged down into stainless steel pan 4" deep. The pan is insulated on all four sides and bottom with at least 3" polyurethane insulation. Pan has drain and stopper. die formed of heavy gauge type 304 stainless

Heating Wells: Are die formed of heavy gauge type 304 stainless steel, deep. Wells are fully insulated and are enclosed on the bottom and all sides with galvanized steel enclosure. Wells are attached to top by concealed hold down assembly. Each well is supplied with a 1500 watt heater mounted under the well, easily removable for replacement. Each well is controlled by an automatic adjustable thermostat of the remote bulb type. Each well has a pilot light which indicates when heater is on or off. There is a master on and off switch with pilot light on table.

Cabinet: Constructed of heavy gauge type 304 stainless steel enclosed on (2) two sides. Shelf and bottom shall be constructed of stainless steel with exposed edge turned down 1 1/4" for strength and durability.

Shipboard Cabinet: Refrigerated cabinet base and liner is constructed of 304 stainless steel. One or two doors as required. Unit has (2) two fixed shelves. Legs are type 304 stainless steel with deck mounting hole in each leg.

Refrigeration: Air cooled refrigeration condensing unit mounted in enclosed section of cabinet, fully vented on (2) two ends. Equipped with a 120V or 220V cold and plug as required. Refrigeration compartment is equipped with removable stainless steel expanded panels for easy access to refrigeration. All units are charged with environmentally safe **R134A** freon.

Frame & Body: Frames are constructed of welded heavy gauge rust resistant steel. Body is constructed of type 304 stainless steel, fully enclosing the frame on all sides and top, with a stainless steel base.

Dispensing Mechanism: Dispensing height of racks/trays shall be maintained at a constant level by using a spring mechanism which guides the rack platform in tracks by the use of a bearing mechanism.

Dispenser: Constructed of type 304 stainless steel. The dispenser shall consist of a spring rack with removable springs fitted with a top platform and dish guides to align the dishes. A constant dispensing level shall be maintained by a properly calibrated spring mechanism. Adjustment of the dispensing level shall be made by adding or eliminated springs.

Cylinders: Are stainless steel, one-piece, deep drawn with no welded seams. Cylinder walls are perforated to allow for free flow of water, but will not allow flatware to fall through. Also available in Nylon.

Drawers: 20" x 20" x 5" High. Each drawer has a handle/lip underneath to facilitate pull-out. Drawers are furnished with a removable insert.

Casters: Mounted on 5" diameter cadmium plated double bearing non-marking rubber tired casters, (2) swivel and (2) with brakes. Legs (if required) is 1 5/8" O.D. stainless steel tubing with adjustable bullet feet.

Tray Rail: If required, is constructed of 1" O.D. type 302 stainless steel tubing mounted on heavy duty type 304 stainless steel collapsible drop brackets.

**Model
TRDC-1418
Shown**

Dispensers are 16GA Stainless Steel. The frame is fully enclosed on all sides and top with a stainless steel base. The dispensing height of racks/trays is maintained at a constant level by using a spring mechanism which guides the rack platform in tracks by the use of a bearing mechanism. Each corner of the unit has non-marking corner bumpers & the dispenser is mounted on 5" diameter swivel casters, (2) with brakes.

Optional Silverware Dispenser can be added to make this unit more versatile. Silverware dispenser is mounted over the frame housing at a slope for easy access to the contents. Furnished with (8) holes for inserting silverware cylinders (perforated stainless steel or nylon). Cylinders Included.

MODEL	OPTION	DESCRIPTION	SIZE (W x L x H) WEIGHT	LIST PRICE
